

The 1997 International Container Directory

The 1997 International Container Directory

features listings of every known box plant outside of North America, in alphabetical order, by country, in two major sections:

- Corrugated/Solid Fibre Plants
- Folding Carton Plants

Each plant listing includes detailed information on:

- Company name and address
- Company personnel
- Telephone and fax numbers
- Monthly capacity
- Equipment on site

If you buy or sell paperboard products in the international marketplace, the 1997 International Container Directory is the most valuable reference tool you can get.

1997 International Container Directory: \$95

The 1996 Fall Official Container Directory

Published twice a year (Spring and Fall), the Official Container Directory is the most complete, up to date, and easy-to-use source of information on box plants in the United States and Canada.

Find information in a snap about manufacturers of corrugated, solid fibre containers, rigid boxes, fibre cans, tubes and drums. It lists companies by state, branch plants, subsidiaries and affiliates, styles of boxes made, equipment, and capacity. And it includes key personnel, address, phone and fax numbers, so you can zero in on and reach the person you want fast. Locate your best sources of packaging and shipping equipment, parts, machinery, and materials quickly and easily too. They're all here, listed alphabetically by category for fast reference.

Stay on top of who's who in the packaging industry the easy way!

Fall '96: \$50 • Spring & Fall '96: \$85 (save 15%)

SUPPLIER news

Lamina of America, Hatboro, Pa., has sold its fully-automatic large-format litho laminator to Wilton Connor Packaging, Charlotte, N.C. The Lamina Model FA-1420 PL laminates sheets up to 55 inches wide by 78 inches long. Lamina also has sold its Model FA-1116 full-sheet laminator to Top Shape Steel Rule Die Corp., Brooklyn, N.Y. It is capable of running sheets from 12 inches by 15 inches to 43 inches by 63 inches.

Spectra-kote Corp., Gettysburg, Pa., has made available its state of the art wax and poly replacement chemicals. Previously, the company's barrier performing, environmentally-friendly, repulpable functional coatings, designed to replace goods currently using wax and polyethylene contaminants, were proprietary applications. In other news from Spectra-kote, the company has received ISO 9001 certification from Det Norske Veritas, Oslo, Norway. Learn more about the company by using its new web site at <http://www.spectra-kote.com>.

Web Systems Inc., Boulder, Colo., has created a home page on the World Wide Web at www.wsinfo.com. The Web Systems home page gives information about the company, its line of ultrasonic cleaning and drying equipment and technical aspects of the ultrasonic process.

Cabot Corp., Billerica, Mass., has established a new Ink Jet Colorants Division to supply pigment-based colorants to the worldwide ink jet printing market. The division's first commercial products are CAB-O-JET™ 200 black colorant and CAB-O-JET™ 300 black colorant dispersions.

CB Display, Winston-Salem, N.C., has purchased a FLXON InkSpec fully-automated viscosity and pH controller for its six-color Bobst 200. This installation includes the new MixSpec™ blender designed to keep the ink's ingredients fully suspended without altering its structure or causing foaming. Both products will be displayed at booth 954 at Correxpo in Atlanta, Nov. 3-6.

Michelman Inc., Cincinnati, and Drex-Chem Technologies Pte. Ltd., Singapore, are forming a joint venture, Michelman Asia-Pacific (MAP). The company will be located at 1 Tuas Ave. 13, Singapore 638924. MAP will manufacture Michelman's line of water-based coatings for the paper industry, and water-based emulsions for the paint and ink markets. The facility is slated for operation in March. For more information, call Steven Shifman at 513-794-4295.

Harris Waste Management Group, Peachtree City, Ga., has added Huwood International, Gateshead, UK, as a distributor. With the acquisition of Murphy Environmental Systems Limited, Huwood International, an engineering company that designs and manufactures materials handling equipment, is now the sole distributor of Harris, Harris-Selco and Mosley recycling and processing equipment in the United Kingdom and Ireland.
